5. All of the above topics, plus two related ones, were discussed 25X1 with has qualified personnel and laboratory facilities to perform these investigations. The initial work will be exploratory to determine the feasibility of some of the suggested approaches. Any encouraging results will be pursued further. 6. The undersigned will remain in contact with 25X1 to keep them advised of our progress and also to continue to explore areas in which this division may be of assistance to them.
